BR – Book Review
LE – Letter to the Editor
ff – Entry continues on following pages

A
Abildgaard, Peter 337ff
Academia Sinica 312
Acarapis woodi 349ff
Acquired immune deficiency syndrome (AIDS)
  and *Crytosporidium* 1
  and *Toxoplasma* 1, 13LE, 14LE
  and *Schistosoma mansoni* 370
Aedes aegypti 31
Albendazole
  metabolism 121
  synthesis 108ff
Ancylostoma duodenale
  antigens 154ff
Angiostrongylus cantonensis 312
Anisakis spp
  and ecdysteroids 385
  and excretory-secretory antigens 323ff
Antigenic variation
  in parasites in general 345
  in *Plasmodium* spp 6, 17, 64, 76LE, 202, 214, 321
  in trypanosomes 1, 15, 244, 299, 342, 353LE
Antisense nucleotides 204
Ascaris spp
  chemotherapy 133, 147
  ecdysteroids 385
  energy metabolism 92
  and immune responses 374
  in Nigeria 143ff, 313
  and *trans*-splicing 328ff
ATPase 196ff, 227ff, 243, 334
Autoimmunity 204, 254ff, 259ff

B
Bacillus thuringiensis 205
Band 3 250, 317ff, 320ff
B cells
  in malaria 17, 64, 255
Behaviour
  for habitat selection 234ff
  of malaria-infected lizards 267ff
  and mate choice 162, 231ff
  of parasitized birds 358ff
  and parasite specificity 278
  and parasite transmission 19ff, 211, 341, 343ff, 352, 353LE, 358ff
  and sex in schistosomes 162
Benzimidazole anthelmintics
  and drug resistance 125ff, 127ff
  metabolism 115ff
  mode of action 112ff
  safety 292
  synthesis 107ff
  use in
    humans 133ff
    livestock 130ff
Biological control
  using *Blastocrithidia triatomae* 362
  using *Capillaria hepatica* 171, 190ff
  using entomopathogenic nematodes 148ff
  using insect viruses 383
  of livestock parasites 295
  of nematodes 199BR
  of snail vectors 237ff
  of insect vectors 205, 362
Biomphalaria spp 177, 215, 238, 363
Bird parasites 341, 358ff
Brugia spp
  antigens 207
  ecdysteroids 328
  and *trans*-splicing 386
Bulinus spp 65, 238, 365

C
Caenorhabditis elegans
  behaviour 344
  ecdysteroids 385
  and *trans*-splicing 328
Calcium
  and helminth peptides 285
  in malaria-infected erythrocytes 196ff, 204
  in *Schistosoma mansoni* 172
Calmodulin (see calcium)
Cambendazole synthesis 108ff
Capillaria hepatica 171, 190ff
Capillaria philippinensis 1, 26
CD36 248ff
Cell-mediated immunity
  in anisakiasis 325
  and antigen-presenting cells 325
  in malaria 17, 64, 202
  and pathology 377
  in schistosomiasis 42, 46
Chagas disease 137ff, 261ff
Chemotherapy
  and antisense nucleotides 204
  of *Ascaris suum* 92
  and benzimidazole synthesis 107ff
  of *Capillaria philippinensis* 27
  and ecdysteroids 386
  and free radicals 84ff
  and immune facilitation 315
  of *Leishmania* sp. 339
  and livestock parasites 127
  of malaria 76LE, 204, 311, 334ff
  and mode of action of
    benzimidazoles 112ff
    chloroquine 77, 198, 230LE, 334ff
  and neurotransmitters 284
  of onchocerciasis 83
  and prodrugs 123
  and proteinases 273ff
  and resistance to
    benzimidazoles 125ff
    chloroquine 311, 335
  and schistosomiasis 315
  of *Taenia solium* 372ff
Chloroquine
  accumulation in lysosomes 78, 334ff
  and DNA binding 77, 230LE
  mode of action 77ff, 334ff
  resistance 198, 204, 215, 311
Ciclobendazole synthesis 108ff
Circumsporozoite protein 1, 7, 17, 64, 76LE, 202, 369
cis-splicing 311
Cobalamin 388ff
Commensalism 341
Complement
  and *Echinococcus granulosus* 281
  and *Leishmania major* 183
  and *Plasmodium falciparum* 152LE, 260
Confocal scanning laser microscopy 305ff
Control (see also biological control)
  of ascariasis 147, 313
  of helminths 133, 148, 279, 314
  of leishmaniasis 339ff
  of honey bee parasites 352
  of livestock parasites 127, 130, 291
  of onchocerciasis 82
  of schistosomiasis 69, 237ff
  of *Taenia solium* 371ff
Cryptosporidium parvum
  and AIDS 8
  diagnostic tests 8
  and pathology 375
  and water resources 1, 8ff
Cysteine proteinases (see proteases)
Cysticercosis 371
Cytoadherence
  in *Entamoeba histolytica* 62

in *Plasmodium falciparum* 152LE, 203, 247ff, 317
Cytokines (see under specific listings)
Cytoskeleton
of *Giardia* 29, 52
of trypanosomes 49

D
DDT 291
Development programmes 141, 166ff, 173ff, 279
Diagnosis
of *Capillaria philippinensis* 26
of *Echinococcus granulosus* 281
Diagnostic tests
for *Anisakis* 323, 326
for *Cryptosporidium parvum* 8
for filariasis 207, 326
for hookworm 154ff
for malaria 205
for *Plasmodium falciparum* 56
for *Trypanosoma cruzi* 137ff
Diclidophora merlangi
and neurotransmitters 287
Dihydrofolate reductase-thymidylate synthase (DHFR-TS)
in *Plasmodium falciparum* 388
and transfection vectors 301
Dirofilaria immitis
ecdysteroids 385
DNA probes
for *Leishmania* 30
for *Trypanosoma cruzi* 137
viruses 381ff
DNA-binding antibodies
in malaria 204, 254ff
in parasitic disease 254ff
Drug design 84ff, 229, 273
Drug resistance
to benzimidazole anthelmintics 125ff
in *Entamoeba histolytica* 63
in livestock parasites 127ff, 293ff
in malaria 77, 198, 201, 204, 230LE
in *Plasmodium falciparum* 76LE, 335, 390
and point mutations 126

E
Ecdysteroids
in nematodes 384ff
Echinococcus spp
in France 215
genetic variation 346
and hydatid disease 280ff
and veterinary perspectives 59
Ecoclimatic index 100
Eimeria spp
and pathology 375
and vaccine development 369
ELISA (see immunoassay)
Endosymbiosis 91, 381
Entamoeba histolytica
adherence 62
cysteine proteinases 271
genetic variation 346, 370
and pathogenesis 62, 163, 378
pore-forming proteins 163ff
Eosinophils (see also cell-mediated immunity)
in anisakiasis 323
in asthma 366BR
Epidemiological models
for *Capillaria hepatica* 191ff
for helminths 282
for parasite communities 308BR
for public health 279, 282
for schistosomes and snails 65ff
Epidemiology
of *Ascaris lumbricoides* 143ff
of drug resistance to benzimidazoles 127ff
of hydatid disease 280
Epstein Barr virus (EBV)
and malaria 203, 255
Escherichia coli
and vaccines 369
Evolution
